

A young boy with short brown hair, wearing a maroon sweater over a checkered shirt, is cheering with his mouth wide open and his right arm raised in a fist. He is positioned in the center of the frame, framed by a white square graphic that has a smaller white square inside it, creating a nested effect. The background is a solid red color.

# LATITUDE SCHOOL PROGRAM

Thank you very much for accommodating our large group of year two students. You did an amazing job with the activities, timing and transition with each group.

*Sujata Symons  
Greenvale Primary School*

## SCHOOLS AT LATITUDE

Latitude is a state of the art indoor aerial super park. Boasting over an acre of physically challenging activities that are not only designed for entertainment, but ideal for physical training, personal development and health education.

The Latitude School Program, tailored for students from foundation up to Year 10, aligns with the Assessment Authority's guidelines on Health and Physical Education curriculum. Special care is taken to ensure the needs of specific ages and development levels have been met and programs are delivered in a safe and fun environment.

## EXCLUSIVE SCHOOLS PRICING

Exclusive School pricing is available for school groups attending Monday to Friday, 10am – 4pm, during school term. School groups must be accompanied by a teacher.

## Safety first

All Latitude parks are built to a premium standard which has been awarded the ATPA certification. This ensures the highest level of safety across our parks. As a compliant member of the ATPA, the safety and wellbeing of our customers is our number one priority.

## TAKE IT TO THE NEXT LEVEL

### YEAR 3 – YEAR 6

#### **BUILDING BREADTH AND DEPTH:**

Latitude's program in this age bracket is designed to enhance and support the period of rapid development across physical, mental and social levels. We refine more complex motor skills and put them into practice in team and individual-based games, activities and sports.

### FOUNDATION – YEAR 2

#### **LAYING THE FOUNDATION:**

In the early years, activities focus on developing movement patterns and refining coordinated actions to develop self-awareness and skills to facilitate ongoing participation in physical activity. Children will learn to communicate effectively, build confidence and start to develop a healthy sense of wellbeing.

### YEAR 7 – YEAR 10

#### **DEVELOPING PATHWAYS:**

To reflect this age of increasing physical and mental development, we aim to give the students more control over their classes – instilling in them a sense of responsibility, as well as allowing them to reflect on what they're learning and how these are applied in life outside of school.

# REAP THE BENEFITS

A visit to Latitude offers students a well-deserved break from their everyday, and the rewards will speak for themselves. With both structured and unstructured play available, we match the relevant activities to the objective of your visit.

A dedicated crew member is a great way to dial up engagement and a competitive spirit between students, whilst ensuring they undertake positively challenging activities throughout their visit.

If the purpose of your visit is to let off some steam, students have the freedom to roam the full activity floor, participating in the activities of their choice to create their own fun.

Our activity floor enables all students the opportunity to enhance their physical, social, mental and emotional development – your ideal excursion awaits!

## THE GRID

Our ninja-parkour playground will thrill the curious kids in the class who love a new adventure and challenge. Students will develop confidence, strength and focus, as they swing, launch, free-style and jump their way through multiple obstacles or tackle The Grid from start to end.

## WHAT STUDENTS LEARN

### FOUNDATION TO YEAR 2

Students will tackle multiple challenges: climbing, swinging and jumping whilst being stimulated by different surfaces, colours and textures.

### YEAR 3 TO YEAR 6

As students master the basics, we'll introduce basic parkour actions and encourage them to work as a team to master obstacles they've never encountered before.

### YEAR 7 TO YEAR 10

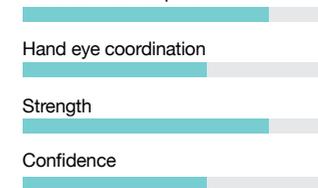

Students will learn more advance parkour skills and draw on speed, agility and sportsmanship to achieve their PB.

Motor skill development

Hand eye coordination

Strength

Confidence

# ROCK CLIMBING

Children are individuals – they grow and develop physical skills and abilities at different rates. Our climbing equipment provides the opportunity for every child to learn and progress at their own pace under the watchful eye of their host. Climbing builds exceptional motor skill development, confidence and hand-eye coordination.

## WHAT STUDENTS LEARN

### FOUNDATION TO YEAR 2

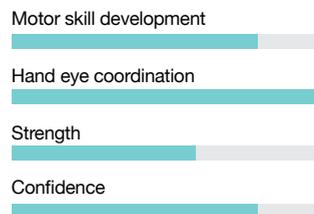

Students will learn the basics of rock climbing, with a focus on safety, body control and landings.

### YEAR 3 TO YEAR 6

As students gain confidence, they will progress to intermediate climbing principles, reaching new heights.

### YEAR 7 TO YEAR 10

Students will learn more advanced climbing principles, progressing to our intermediate walls.

# TRAMPOLINES

Apart from being a lot of fun, trampolining is a great holistic health activity, with both physical and mental benefits for all who participate. According to NASA "Rebound exercise is the most efficient, effective form of exercise yet devised by man".

## WHAT STUDENTS LEARN

### FOUNDATION TO YEAR 2

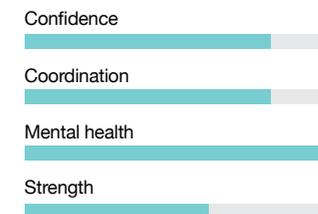

Children will learn straight jumps and how to safely stop their movement, progressing to twisting motions, seat drops and hands and knees landings.

### YEAR 3 TO YEAR 6

Children will progress beyond straight jumps to twisting motions, seat drops and hands and knees landings.

### YEAR 7 TO YEAR 10

Children will receive structured trampolining classes from our qualified coaches, to develop core trampolining skills. These skills will progress towards learning the basics on how to run the wall.

# OBSTACLE COURSE

Getting the most out of active play involves encouraging students to set the pace with new challenges, and enjoy a variety of experiences. Our six section sky-high obstacle course will have your students climbing, tight-rope walking and even swinging through a number of fun and thrilling challenges.

## WHAT STUDENTS LEARN

### FOUNDATION TO YEAR 2

Students work on balance, coordination, whilst overcoming fears on our suspended obstacle course.

### YEAR 3 TO YEAR 6

Students will build trust and confidence while overcoming fears on the suspended obstacle course. If feeling confident, students are encouraged to try the whole course without using their hands.

### YEAR 7 TO YEAR 10

To increase the difficulty level, students will tackle the suspended obstacle course in pairs with one person blindfolded. Trust and communication are critical for the pair to complete the course.

Motor skill development

Hand eye coordination

Strength

Confidence

# AIRBAG

The giant airbag has a huge emphasis on fun! Students will learn to step outside of their comfort zone, control movement engaging a range of different muscle groups, and become an aerial superstar.

## WHAT STUDENTS LEARN

### FOUNDATION TO YEAR 2

Students will learn how to safely jump into our giant airbag, controlling momentum and direction whilst in the air.

### YEAR 3 TO YEAR 6

Students will learn how to safely jump into our giant airbag, controlling momentum and direction whilst in the air.

### YEAR 7 TO YEAR 10

Students will learn a range of jumps from Latitude's platform into the airbag, ensuring a safe landing.

Controlled movement

Safety

Confidence

Strength

## DODGEBALL

Children learn best when their whole bodies and minds are stimulated, and being active does just that. Dodgeball is the ideal activity for active play, involving moderate to vigorous bursts of high energy. It requires teamwork, coordination and strategic game plans.

### WHAT STUDENTS LEARN

#### FOUNDATION TO YEAR 2

Students will participate in basic throwing and catching activities using our soft dodgeballs, building basic hand-eye coordination skills.

#### YEAR 3 TO YEAR 6

Building intermediate aiming and dodging techniques. Students will learn the importance of quick thinking to prevent opponents from anticipating attacks.

#### YEAR 7 TO YEAR 10

Students will take charge of running the games, enforcing the rules and developing game strategies.

Active play

Teamwork

Hand eye coordination

Movement

## BASKETBALL

Basketball requires a wide range of physical skills, but it is also a fast paced mental game. Students will develop skills of concentration and self-discipline as they learn to refine their shooting technique. It helps shy children become more confident, and the trampoline adds a higher degree of motor skill development.

### WHAT STUDENTS LEARN

#### FOUNDATION TO YEAR 2

Learn basic throwing and shooting techniques, improving strength and hand-eye coordination.

#### YEAR 3 TO YEAR 6

Work on strength and improve shooting techniques. Practise getting momentum from the trampoline in order to slam dunk the ball.

#### YEAR 7 TO YEAR 10

Students will practise their shooting technique with one of our basketball gurus while engaging in competitive games.

Spatial awareness

Mental health

Object control

Games

All staff were fantastic at dealing with special needs students and with staff. Our crew leader was exceptional and he was brilliant at communicating and relating with the students.

## INCLUSIVE PROGRAMS

Our programs offer learning opportunities for students of all ages and abilities. We respect that some students need a little extra guidance and encouragement whilst in our care, and we pride ourselves on taking the time to ensure everyone has the same opportunity to participate.

Designed to promote healthy lifestyles, and feelings of belonging, acceptance, accomplishment and growth, the benefits of our programs resonate in all aspects of life: social, physical and mental.

Our hosted programs give students the opportunity to challenge themselves, at their own pace and tailored to their needs. Give our team a call to find out how your students can benefit from our programs.

## MAKE A BOOKING

Whether you are looking for a structured school program or a casual session, our superstar functions team are here to help. Don't forget, catering can be added to your package to feed those hungry bellies. Just ask us for more info.

## GIVE US A CALL

We are passionate about tailoring your visit to suit the needs of your group, so give us a call to discuss what Latitude can offer you and your students.
